

# 1971 HEMI CUDA STYLE GILL ROCKER MOULDINGS FOR ALL 2008 - 2017 CHALLENGERS

These rocker panel mouldings were inspired by the design of the highly sought after 1971 Hemi Cuda Gill Rocker Mouldings. The Cuda Style Gill Rocker Mouldings are available in two colors: Textured silver, which is very similar to the finish on the original 1971 Hemi Cuda Rocker Gills or slightly textured flat black.

Just like the original 1971 Hemi Cuda Gill Rocker Mouldings, these Cuda mouldings run the entire length of the lower rocker. They are the perfect finishing touch for your Challenger, especially if you want the classic Hemi Cuda look. The Cuda Gill Rocker Mouldings are sold in pairs, and are the perfect complement to the Mr. Norm's Cuda Style Grille and Tail Panel.

The Cuda Gill Rocker Mouldings are ready to install right out of the box. They are easy to install, and attach over the factory black plastic rocker mouldings on all 2008 – 2016 Challengers using screws that are provided with the kit.
