

FLOWMASTER DELTA FORCE COLD AIR INTAKE

For 2008 - 2019 CHALLENGERS, 2005 - 2019 Charger & 300

As seen on the cover of Chrysler Power Magazine

DELTA FORCE COLD AIR INTAKE INFORMATION

The Delta Force Cold Air Intake for Challengers, Chargers, Magnums and Chrysler 300's is the perfect engine enhancement for free breathing and enhanced power. It is especially recommended for vehicles equipped with functional Ram Air Hoods like the Mr Norm's Demonic Challenger Hood and Chrysler 300 Hellcat style hoods.

PRODUCT MANUFACTURING INFORMATION

The Delta Force system has a custom molded black Cross-Linked Polyethylene high-flow intake tube, black anodized aluminum fittings (when applicable), high quality reinforced silicone couplers and all stainless steel hardware. Other features include a large diameter high-flow conical shaped 8 layer cotton gauze air filter, a custom-fit black powder-coated air dam with attachment brackets to securely mount the system in place along with soft bumpers to eliminate any metal to metal contact under the hood.

SHOWN ON 50TH ANNIVERSARY HELLCAT

SHOWN ON CHRYSLER 300H WITH 5.7 HEMI

ADDITIONAL FEATURES:

- No Tuning Required
- Serviceable Lifetime High-Flow 8 Layer Filter
- No Cutting or Drilling For Easy Installation
- High Quality Components With Custom Look

THE RACERS NET FOR THE FLOWMASTER DELTA FORCE COLD AIR INTAKE FOR VEHICLES EQUIPPED WITH HEMI ENGINES IS \$291.95
